

2016 EXPRESS SERVICE LIGHTING REBATE FOR COMMERCIAL AND INDUSTRIAL CUSTOMERS

Valid for all Eversource ("Eversource") and United Illuminating ("UI") commercial & industrial customers ("Customer") who purchase and install eligible lighting ("Lighting") on or after January 1, 2016 through December 31, 2016. **All rebate applications ("Application") and required documentation must be received no later than March 31, 2017.** All Eversource customers must have a commercial revenue code on their account to be eligible for rebates.

TO APPLY FOR YOUR REBATE, READ THE PROGRAM TERMS AND CONDITIONS ON REVERSE BEFORE PROCEEDING.

Instructions

Please fill out this Application completely, truthfully and accurately and mail it together with 1) an installation invoice indicating the date of purchase and itemizing cost, Equipment type, size, make and model of the system(s); 2) an IRS W9 Form; and 3) the manufacturer's specification sheet to:

EFI-CT C&I Lighting Rebate Program
40 Washington Street, Suite 2000
Westborough, MA 01581

OR

Apply online at:
EnergizeCT.com

Required Documents Checklist

- Signed Application
- Installation Invoice With Make/Model and Installed Cost(s)
- IRS Form W9
- Specification Sheet

PLEASE READ REQUIREMENTS THAT ARE PART OF THIS FORM. ALL INFORMATION IS REQUIRED FOR PROCESSING REBATE.

PRE- AND POST-INSPECTION OF FACILITY REQUIRED FOR REBATES OVER \$5,000

For questions or more information, please call 1-877-WISE-USE (877-947-3873).

Customer Certification Agreement (Please Read Carefully)

I certify that I have purchased and installed the indicated energy-saving products on or after January 1, 2016 for use in the business facility listed above and not for resale. I have attached the itemized proof of purchase (sales slip or invoice, including model numbers of lamps, etc.). I agree to a verification by a Utility representative of both the sales transaction and product installation and also allow Utility access to pre- and post-monitor the installation. Falsifying any of the above information will void this rebate application and any future rebate applications. I agree that to qualify for 100% of the rebate or account credit, I must be receiving a substantial amount of electricity needed by the facility where the lighting equipment is installed, via Utilities' distribution equipment, otherwise the rebate will be prorated by multiplying the full rebate by the percentage of the facility's total electrical needs that is delivered via Utilities' distribution equipment. Utility shall mean Eversource or UI only.

1	3 lamp, 4 foot, T8 No Controls	96	2,187	1	Wall Mounted Occ. Sensor	51A	96	\$20	\$20
For Existing Case Quantity , enter Annual Hours of Use.				For New or Final Case Quantity , enter number of fixtures controlled and average wattage of fixtures controlled.					

Table A (Section 1): T8 Lighting Systems Rebates

Measure Code	Measure Description	Per Fixture Rebate	Eligibility Criteria	Min. Watts Saved	
10	Re-lamp/re-ballast existing T8 fixtures with new High Performance /Reduced Wattage (HP/RW) T-8 lamps and HP/RW T-8 Electronic Ballasts systems or T-5 lamp and ballast systems.	\$15	Each fixture is composed of a HP/RW ballast and 1, 2, 3 or 4 HP/RW lamps . Only one rebate may be counted per fixture. This also applies to non 4' lamps (2', 3', U bents, cold apps.) HPL additional rebate does not apply.	11	
11	Re-lamp/re-ballast existing T12 fixtures with 1 or 2 T-8 lamps and T-8 Electronic Ballasts systems	\$20	Each T8 fixture is composed of an electronic ballast and 1 or 2 lamps . Only one rebate may be counted per fixture. This also applies when electronic ballasts are used with non 4' lamps (2', 3', U bents, cold apps.)	15	
12	Re-lamp/re-ballast existing T12 fixtures with 3 or 4 T-8 lamps and T-8 Electronic Ballasts systems	\$25	Each T8 fixture is composed of an electronic ballast and 3 or 4 lamps . Only one rebate may be counted per fixture. This also applies when electronic ballasts are used with non 4' lamps (2', 3', U bents, cold apps.)	20	
13	Re-lamp/re-ballast existing T12 HO (High Output) fixtures with new T-8 lamps and T-8 Electronic Ballasts systems	\$25	Each T8 fixture is composed of a ballast and 1, 2, 3 or 4 lamps . Only one rebate may be counted per fixture. This also applies when HP/RW ballasts are used with non 4' lamps (2', 3', U bents, cold apps.)	20	
NEWT8	Replace older Fixture (any type) with New T8 fixture (note: HPL additional rebate may apply)	\$40	New fixture is composed of an electronic ballast(s) and 1, 2, 3 or 4 lamps . Only one rebate may be counted per fixture. This also applies to fixtures with non 4' lamps (2', 3', U bents, cold apps.). HPL additional rebate may apply.	32	
HPL	*Use High Performance Lamps and High Performance or Reduced Wattage (HP/RW) Ballasts (note: cannot be applied to code 10)	\$5	High Performance or Reduced Wattage (HP/RW) lamps & ballast systems must be used to qualify for this additional rebate. For detailed eligibility requirements & a list of qualifying lamps and ballasts, log onto CEE's web site at www.cee1.org or utility website.		

Table A (Section 2): T5 Lighting Systems Rebates

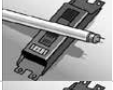

Measure Code	Measure Description	Per Fixture Rebate	Eligibility Criteria	Min. Watts Saved	
20	Install new T5 Fluorescent Fixtures for High and Low Bay Applications (< 207 W)	\$40	Only one rebate may be counted per fixture. This also applies to non 4' lamps (2', 3', U bents, cold apps.) HPL additional rebate does not apply.	32	
21	Install new T5 Fluorescent Fixtures for High and Low Bay Applications (> 207 W)	\$70	Only one rebate may be counted per fixture. This also applies when electronic ballasts are used with non 4' lamps (2', 3', U bents, cold apps.)	53	
*	<i>The * denotes 4 ft straight linear tube T8 lamps and ballasts must meet the Consortium for Energy Efficiency's High Performance/Reduced Wattage (HP/RW) T8 specifications except where otherwise noted. For eligibility requirements and a list of eligible lamps and ballasts, log onto CEE's web site at www.cee1.org. Note: 2 ft, 3 ft and 4 ft non standard linear T8 lamps including U bents when used in combination with CEE's High Performance/Reduced Wattage (HP/RW) T8 Ballast Specifications are considered HP/RW systems.</i>				

Table A (Section 3): LED Systems Rebates

Measure Code	Measure Description	Per Lamp Rebate	Eligibility Criteria	Min. Watts Saved	
30	ENERGY STAR® LED Downlight Fixtures Hard Wired or GU-24 base	\$40	This rebate only applies to hardwired or GU-24 base LED fixtures rated as a commercial LED product by ENERGY STAR. (for more information see www.energystar.gov)	30	
31	ENERGY STAR LED Directional Replacement Lamps (< 20/8 inch)	\$12	Eligible for these reflector styles: MR16, PAR16 and PAR20. Eligible lamps are required to be listed by ENERGY STAR Pre-Qualified list. (for more information see www.energystar.gov)	9	
32	ENERGY STAR LED Directional Replacement Lamps (< 20/8 inch and LED Downlight Retrofit Kits)	\$22	Eligible LED Directional Integral replacement lamps are for all reflector styles PAR 30 and larger. Also Eligible are Screw Base LED Downlight Retrofit Kits. Eligible lamps are required to be listed by ENERGY STAR Pre-Qualified list. (for more information see www.energystar.gov)	17	
33	ENERGY STAR LED Omni Directional Replacement Lamps (A, BT, P, PS, S, T Edison base lamps)	\$12	Eligible LED Integral replacement lamps. Eligible lamps are required to be listed by ENERGY STAR Pre-Qualified list. (for more information see www.energystar.gov)	10	
34	ENERGY STAR LED Decorative Replacement Lamps (B, BA, C, CA, DC, F, G, Candelabra Edison base lamps)	\$5		5	

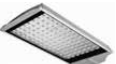

Measure Code	Measure Description	Per Fixture Rebate	Eligibility Criteria	Min. Watts Saved		
35	DesignLights™ Consortium (DLC) Qualified LED Cooler, Freezer Case or Refrigerated Shelving Fixtures – 3' & 4' Fixtures	\$40	Eligible LED Cooler and Freezer Case fixtures are required to be listed on DesignLights Consortium or the utility's websites (for more information see www.designlights.org) Please specify quantity of end and/or center mount fixtures.	30		
36	DesignLights™ Consortium (DLC) Qualified LED Cooler, Freezer Case or Refrigerated Shelving Fixtures – 5' & 6' Fixtures	\$60		45		
37A	DesignLights™ Consortium (DLC) Qualified LED Interior Fixtures (Tier 1)	\$30		Only LED Interior fixtures listed on DesignLights Consortium website are eligible for this rebate. (for more information see www.designlights.org). This does not include retrofit kits or lamps.	40	
37B	DesignLights™ Consortium (DLC) Qualified LED Interior Fixtures (Tier 2)	\$60			80	
37C	DesignLights™ Consortium (DLC) Qualified LED Interior Fixtures (Tier 3)	\$120	110			
37D	DesignLights™ Consortium (DLC) Qualified LED Interior Fixture	\$180	140			
38A	DesignLights™ Consortium (DLC) Qualified LED Exterior Fixtures (Tier 1)	\$30	Only LED Exterior fixtures listed on DesignLights Consortium website are eligible for this rebate. (for more information see www.designlights.org). This does not include retrofit kits or lamps.	30		
38B	DesignLights™ Consortium (DLC) Qualified LED Exterior Fixtures Lighting (Tier 2)	\$60		60		
38C	DesignLights™ Consortium (DLC) Qualified LED Exterior Fixtures Lighting (Tier 3)	\$120		120		
38D	DesignLights™ Consortium (DLC) Qualified LED Exterior Fixture	\$180		180		
39	LED or LEC (Electroluminescence) Exit Fixtures	\$10	All materials and assembled units shall comply with all applicable codes and standards including (but not limited to) Federal/State/Local building, fire, and electrical codes, and may require designated egress lighting to comply with such codes. Exit sign retrofit kits are not eligible.	5		

Table A (Section 4): Other Lighting Systems Rebates

Measure Code	Measure Description	Per Fixture Rebate	Eligibility Criteria	Min. Watts Saved	
40	Compact Fluorescent Fixture	\$25	To be eligible for rebates, all fixtures must be hard-wired and have electronic ballasts. (Retrofit kits and screw-in adapters are not eligible)	26	
41	Pulse Start Metal Halide Lamp and Electronic Ballast Kits	\$15	All kits must include a new matched Pulse Start Metal Halide Lamp and Electronic Ballast installed per manufacturer's specifications and applicable codes. Indoor and Outdoor fixtures are eligible.	16	
42	Pulse Start Metal Halide Fixture with Electronic Ballast	\$15	Only New Metal Halide Pulse Start fixtures with Electronic Ballasts are eligible. Retrofit of existing metal halide fixture of less than 200 watts with new fixture is not eligible. Indoor and Outdoor fixtures are eligible.	16	
43	Induction Technology Retrofit Kit or Fixture (Tier 1)	\$25	All kits must be installed per manufacturer's specifications and applicable codes. Indoor and Outdoor fixtures are eligible. Rebates are based on a one-for-one replacement of incandescent or high intensity discharge (HID) lamps including, mercury vapor, high pressure sodium, and standard metal halide or pulse start metal halide.	27	
44	Induction Technology Retrofit Kit or Fixture (Tier 2)	\$50		53	
45	Reflector Retrofit Kit	\$15	To be eligible for rebate, item must be part of a retrofit kit and reduce the number of lamps originally installed.		

Table A (Section 5): Lighting Controls Rebate

Measure Code	Measure Description	Per Sensor Rebate	Eligibility Criteria	Min. Watts Controlled	
50	Ceiling Mounted Occupancy Sensor	\$20	Ceiling mounted control with no manual "ON" overrides. Comply with manufacturer's coverage recommendations and all applicable codes.	100	
51A	Wall mounted Occupancy Sensors	\$20	Occupancy Sensors must operate as Automatic ON and OFF. Sensors are wall mounted devices only. Comply with manufacturer's coverage recommendations and all applicable codes.	50	
51B	Wall mounted Vacancy Occupancy Sensors	\$20	Vacancy Sensors must operate as Manual ON, Automatic OFF. Sensors are wall mounted devices only. Comply with manufacturer's coverage recommendations and all applicable codes.	50	
52	High Bay Fluorescent (HIF) Occupancy Control Systems	\$25	Ballasts must be automatically controlled based on occupancy. Systems with manual "ON" or override switches are not eligible. Sensors to be mounted on individual fixtures only.	50 (per fixture)	

NOTE: FOR ALL LED REBATES A SPECIFICATION SHEET IS REQUIRED WITH REBATE SUBMITTAL.

TERMS AND CONDITIONS

APPLICATION OFFER: This rebate program covers eligible products purchased and installed on or after January 1, 2016 through December 31, 2016. Details of the 2016 Express Service Lighting Rebate for Commercial and Industrial Customers ("Program") and rebate levels are subject to change without prior notice. Contact your participating utility representative for the latest program details. **This application form with ("Application") required documentation must be received by March 31, 2017.** Availability of funding is not guaranteed. The utilities reserve the right to cap rebate amounts. **For more information, please call 1-877-WISE-USE (877-947-3873).**

ELIGIBILITY: Rebates are available to industrial, commercial, institutional and agricultural electric service customers with a commercial rate code on their electric service. **New construction is NOT eligible.** For major renovations and inspections, contact an authorized Draft B Attached/UI representative. Residential customers may apply for a rebate for common areas of multi-family housing. All residential multi-family CL&P doing business as Eversource Energy (Eversource), hereinafter referred to as Eversource, customers must have a commercial revenue code on their account to be eligible for rebates.

PAYMENT: Please allow at least 30 days for payment. **Payment process may take longer if information is missing on Application.**

REBATE AMOUNT: In no case will Eversource/UI pay more than 100% of the purchase price shown on the invoice.

PRE-APPROVAL AND VERIFICATION: Rebates exceeding \$5,000 must be pre- and post-inspected by an authorized Eversource/UI representative. Additionally, Eversource/UI reserves the right to inspect any installation prior to issuing rebates.

REBATE LEVELS: Rebate levels will be confirmed upon receipt of **detailed invoices** (stating quantities and part numbers) specifications sheets (if applicable), along with post-inspection results (if applicable).

TAX LIABILITY: Eversource/UI will not be responsible for any tax liability imposed on the customer as a result of the rebate payments. All Customers must supply their Federal Tax Identification Number or Social Security Number (IRS Form W9) as part of this Application to receive a rebate. We will issue a 1099 to all unincorporated customers receiving rebates in excess of \$600.00.

ENDORSEMENT: Eversource/UI does not endorse any particular manufacturer, product, or system design in promoting this Program. The website below provides access to the industry standard spec for the definition of "High Performance" T-8 lighting systems and Reduced Wattage T-8 lighting systems as well as frequently updated listing of eligible lamp/ballast combinations by manufacturer: www.cee1.org. All LED fixtures or lamps must be ENERGY STAR® or DesignLights™ Consortium qualified. The lists of qualifying products can be found at www.energystar.gov and www.designlights.org, respectively.

FORWARD CAPACITY MARKET AND CLASS III CREDITS:

ISO-NE CAPACITY PAYMENTS: By signing this document, and as a condition to receiving a rebate pursuant to this program, the customer acknowledges and agrees that any and all payments, benefits and/or credits associated with or applicable to the customer's participation in the program that is the subject of this Agreement in connection with the

ISO New England, Inc. Forward Capacity Market ("FCM") or any existing, successor or replacement markets, (including, but not limited to, any and all transitional FCM credits or payments or any and all other capacity-related credits, payments and/or benefits for which such customer is eligible) shall be deemed as and form capacity payments, credits and/or benefits of The Connecticut Light and Power Company, doing business as Eversource Energy (Eversource), or The United Illuminating Company (UI), as applicable. The customer hereby assigns to Eversource or UI, as applicable, all of its right, title and interest in and to any and all such capacity payments, credits and/or benefits, and agrees to take any and all action, including executing and delivering any and all documentation and/or instruments, as requested by Eversource or UI, as applicable, to evidence the same. FCM means the market for procuring capacity pursuant to ISO-NE Tariff, FERC Electric Tariff No. 3, Section III, Market Rule 1, Section 13, any modifications to the FCM, or any successor or replacement market/capacity procurement process.

CLASS III CONSERVATION CREDITS: Any Class III renewable energy credits and/or conservation credits received in connection with this program shall be retained by the Companies pursuant to the laws of the State of Connecticut and/or applicable PURA decision in effect as of the date hereof.

PRODUCT REQUIREMENTS

U.L. LISTING: Items eligible for a rebate must be U.L. listed. Reflectors must be U.L. classified.

WATTAGE REDUCTION: There must be at least a 10% system wattage reduction between the old and new system wattage for product to qualify.

FIXTURES: Conversions to T-8 systems can either be total fixture replacements or simply a lamp plus ballast replacement. **Conversions from T-8 to High Performance T-8 or Low Wattage T-8 systems must include lamp and ballast replacement to be rebated.** Lamp only replacements do NOT qualify. Contact your Eversource/UI customer support office for details. The customer has the final responsibility for assuring that the fixture conversion or installation is suitable for his/her lighting requirements.

ELECTRONIC BALLASTS: Compatible electronic ballasts are required as part of retrofitting fluorescent fixtures and must be indicated on the invoice to receive a fixture rebate (T-12 electronic ballasts are not eligible for rebate).

REFLECTORS: It is recommended that a sample area of reflectors be installed to ensure satisfaction with light output and distribution. Lamps must be re-centered after original lamps are removed; the reflector must cover the full face of the fixture. The reflector must have the appropriate U.L. Classification Marking. These devices have been evaluated by U.L. to determine that when used in accordance with the manufacturer's instructions, they do not adversely affect the operation of the complete fixture. Installation of the retrofit devices must be approved by the local Building Official to ensure compliance with the State Building Code. All reflector projects must be inspected. White or specular metal reflectors must have a minimum reflectivity rating of 90%. White reflectors will only receive a rebate at fixture mounting heights of 12 feet or less.
