COMMITTEE MEETING MINUTES

ATTENDEES: O’Connor*, Wells, Duva*, Ingram, Oswald, McLean-Salls*, Skumatz, Wirtshafter, Chiodo.

1. No Public Comment

2. Approval of Minutes from previous meeting (to be sent for e-vote / not ready)

3. Non-Project Updates and Issues
   b. Status of Data requests / Timeline – Red items are current issues. C1634 issue – worked with both utilities and the problems are resolved since the report was prepared – thanks to Ingram / Oswald. Third page R1706 RASS: Need to represent customer database for what potential remains, characteristics of housing stock, measures installed, etc. Need to represent population. In another state it became clear there is overresponse from customer participants (MA, RI evidence), so need accurate cell counts for program participation, and got data from Eversource, but UI has elected not to supply the data. Possible resolutions: Committee weigh in and recommend meeting data request; use Eversource numbers for UI (Not recommended); other jerry-rigged options that could be developed. Not asking for entire database. Asking for info on customers that participated in each program (not upstream programs), not all data from database. UI response: asked numerous times and told not to provide the data. Interpreted the request to be all customers but recently provided updated request saying participants by program would work. Happy to have a call with UI and higher-ups and committee members; Taren interested in participating / will schedule. UI also mentioned possibly percent of participants by program. Not sure that will work. HES data request: long description in tracking report – Eversource says the gas usage data is included in what was forwarded and he sent instructions. UI says sent info uploaded Tuesday the 7th and hasn’t heard back from WestHill. Last outstanding request is Multifamily 6/27 request for UI. This is a big request and was sent to Oswald by Mack last week / Oswald expects to send today and Wirtshafter will watch for that. Red flag works for committee.
   c. SERA team invoices – September to be prepared / not ready and will be e-voted.

4. Project Updates and Evaluation Planning Discussion
a. Evaluation Planning Process – started earlier this year, but still not looped into 3 year plan. Want to do in synch with Plan development, and want to get RFPs out this Calendar year if possible to get project started as soon as possible in new year / less delay.
   • Idea sheet sent out Thursday – Due COB 10/18/18 (excel format)
   • EA Team comes up with projects (deleted project list, PSD gaps / old numbers, program plan savings & changes & directions, timing since last evaluation, ISO needs, etc.). EA Team combines with idea-form projects; reviews, refines / combines, scores on criteria, budgets top tier, refines scoring, works internally to develop recommended plan / budget understanding limitations.
   • EA Team develops documents identifying prioritized list of projects with recommendations (incl. criteria & budgets); in-person discussion preferred and working on possible dates.
   • After in-person meeting, address follow-up committee questions, refine plan as needed in preparation for vote, develop recommended list for vote.
   • Desirable to have approval Nov (or latest Dec) so EA team can develop RFPs for projects (reviewed by Committee) to be issued early so we are starting projects asap in early 2019.
   • Question of date for November meeting Tuesday 11/13 – circle back on possible dates for meeting; note that O’Connor out that week. Consideration includes projects that
