RE: Docket No. 13-03-02 - PURA/BETP Consideration of 2013-2015 Conservation and Load Management Plan - Correspondence

Dear Mr. Neeley and Ms. Babbidge:

The Connecticut Light and Power Company, doing business as Eversource Energy ("Eversource") is pleased to submit this written response in regard a final evaluation report: *Impact Evaluation: Home Energy Services - Income Eligible and Home Energy Services Program (R16)*, NMR Group Inc. and Cadmus Group Inc., December 31, 2014 ("Final Evaluation"). Eversource received the Final Evaluation on January 13, 2015 with a request for a written response by February 13, 2015.

The Final Evaluation provided evaluated savings results for the Home Energy Solutions ("HES") and Home Energy Solutions Income Eligible ("HES-IE") programs for both natural gas and electric based on a combination of a statistical billing analysis and engineering estimates. In addition, an analysis was completed to assess the impact of lighting interactive effects in order to estimate the changes in the energy consumed by heating, ventilation and air conditioning ("HVAC") systems resulting from the installation of efficient lighting.

Eversource has incorporated the results of an earlier (Draft) version of this Study (dated July 2, 2014) into the 2015 Program Savings Documentation ("PSD") for program year 2015. However, the Draft of the Final Evaluation did not include the lighting interactive effects analysis. Therefore, Eversource currently has incorporated the results of the Final Evaluation for program year 2015 with the exception of the lighting interactive adjustment. For 2016, Eversource plans on adding the interactive effects adjustment on top of the PSD adjustments that have already been executed.

If you have any questions please do not hesitate to contact Joseph Swift at 860-665-5692.

Very truly yours,

Christopher R. Bernard
