

2019 RESIDENTIAL GEOHERMAL ELIGIBILITY PRE-APPLICATION FOR EXISTING HOMES

Valid for all The Connecticut Light and Power Company dba Eversource Energy ("Eversource") and United Illuminating ("UI") residential electric service customers ("Customer") planning to install a residential geothermal system ("System") for an existing home in 2019. Applicants must complete a Home Energy Solutions (HES) assessment and meet energy efficiency requirements. **During assessment, interested customers should request completion of the 2019 Residential Geothermal Eligibility Application for Existing Homes ("Application").** The completed Application will indicate the home as passing or needing improvement. If improvements are needed, please attach appropriate documentation. A pre-approved and stamped Final Application is then mailed to the applicant from the utility administrator and the rebate dollars reserved. All installed systems must qualify for any rebate payments.

TO APPLY FOR YOUR REBATE, READ THE PROGRAM REQUIREMENTS ON FOUND ON THE REVERSE SIDE BEFORE PROCEEDING.

INSTRUCTIONS: Please fill out this Application completely, truthfully and accurately and mail it together with the required items outlined in the **Supporting Documentation Checklist** below to:

TERMS AND CONDITIONS

ELIGIBILITY: Rebates are available to all The Connecticut Light & Power Company doing business as Eversource Energy (Eversource) and United Illuminating (UI) residential electric service customers ("Customer") planning to install an Energy Star® qualified geothermal system for an existing home in 2019. Applicants must complete a Home Energy Solutions assessment and meet energy efficiency requirements. Qualifying system ("System") must be installed in the service territory of the participating electric utility by a licensed contractor.

To Be Completed By Home Energy Solutions Technician

Minimum Requirements Insulation:	Pass	Needs Improvement / Current Value
Roof/Attic insulation greater than or equal to R-30	<input type="checkbox"/>	R-_____
Floor over basement greater than or equal to R-19	<input type="checkbox"/>	R-_____
Floor over other unheated space greater than or equal to R-30	<input type="checkbox"/>	R-_____
Above grade exterior walls greater than or equal to R-13	<input type="checkbox"/>	R-_____
Minimum Window Requirements:		
Double Pane or U-value less than or equal to .40 or equivalent (storms + single pane is acceptable)	<input type="checkbox"/>	U=_____
Minimum Air Leakage:		
Tested CFM50 per square foot of conditioned floor area less than or equal to 1CFM50 per square foot of all space to be conditioned	<input type="checkbox"/>	CFM50/sq. ft.=_____

If any of the above requirements are not met at the time of inspection, applicant must submit a receipt and or other documentation is required that shows the deficient item has been improved that deficient items have been improved. If home requirements were not met and a second test or inspection is required, additional testing costs will be at the customer's expense.

Additional detail is provided on the Residential Geothermal Performance Rebate Final Application For Existing Homes which will be provided once the home is approved.

To participate in Home Energy Solutions, Call 1-877-WISE-USE (1-877-947-3873)

For Eversource customers: eversource.com

For UI Customers: uinet.com

PURPOSE: The 2019 Residential Geothermal Eligibility Application for Existing Homes ("Program") has been created to:

- 1) Verify existing homes meet required energy efficiency levels in order to maximize customer benefits to Customers
- 2) Reserve rebate dollars for the proposed project

APPLICATION OFFER: This Program coincides with customers planning to install a qualified ENERGY STAR® residential Geothermal System in a pre-existing home on or after January 1, 2019 Customers planning to install a residential geothermal System for an existing home on or after January 1, 2019 through December 31, 2019. This Application must be filled out to its entirety ensuring all information is accurate and truthful. A Home Energy Solutions Technician's signature is required. Any incomplete inspection reports will not be accepted. A Home Energy Solutions Technician's signature is required. Any incomplete inspection reports will not be accepted. To find out if needed improvements may have separate program rebates available to assist you, contact your program administrator listed on the front of this Application form. For more information on additional improvements and rebate available, please contact your program administrator listed on the front of this application. **Details of this Program are subject to change or cancellation without prior notice. This 2019 Residential Geothermal Eligibility Application for Existing Homes ("Application")**

with required documentation must be postmarked by January 31, 2020. Funding for this rebate Program is limited to the period indicated or while funds last. For more information, please call 877-WISE-USE (877-947-3873). Rebates available under this program are subject to additional terms and conditions set forth in the Residential Geothermal Performance Rebate Final Application.

REQUIREMENTS:

- 1) The home must be assessed by an Eversource or UI approved Home Energy Solutions Technician and meet minimum requirements.
- 2) The System must be ENERGY STAR rated and meet 2019 efficiency requirements. energystar.gov
- 3) The System must be AHRI rated as assembled. ahridirectory.org

APPROVAL AND VERIFICATION: Home must meet above minimum requirements in order to qualify. The home may be improved and re-verified. Re-verification may be by any approved auditor. There may be an additional cost for re-verification. You will be notified within three business days if your geothermal project has been approved.

A stamped Residential Geothermal Performance Rebate Final Application for Existing Homes form will be mailed to the Customer once the home is approved.

Minimum Efficiency Levels / Rebate Schedules

Eligible Equipment Type	Minimum Efficiency for Rebate	Rebate Per Ton*
GLHP – Closed Loop Water to Air	17.1 EER ¹ / 3.6 COP ² Minimum	\$500
DX – Direct Expansion Refrigerant	16.0 EER / 3.6 COP Minimum	\$500
W to W – Water to Water	16.1 EER / 3.1 COP Minimum	\$500

¹ EER – Energy Efficiency Ratio

² COP – Coefficient of Performance

*** \$500 per AHRI reported cooling ton in 1/2 ton increments to a maximum of \$1,500 per home.**

Energize Connecticut – programs funded by a charge on customer energy bills.
